84 Hanover St., Silver Creek, N. Y.

October 10, 1944.

Dear Postmaster:

The canceling machine business of the Columbia Postal Supply Company, fifty years old, and that of the Ielfield Postal Supply Co., twenty-five years old, have been merged and you can now order supplies from either company or from Columbia - Ielfield as above.

At least once a year the rubbers and ink roll, also drive belt, should be changed for best service and the best time to do this is now, well in advance of the Christmas rush.

This is also the best time to order your 1945 year type and lay it away in your type box or in some safe place so that it will surely be on hand Jan. 1, 1945, when so badly needed.

We are making special offers on the supplies usually needed as follows:
